Considering the fast development of educational technology studies and practices in Indonesia, it is important to bring an international conference on educational technology to Indonesia. Therefore, we need ample support from the Association of Educational and Communication Technology (AECT) in order to hold the event. UNJ as the host institution has set up a collaborative work with Universitas Terbuka (Open University), a prominent university in Indonesia and also with two other fast moving Universities in Bali, Universitas Ganesha (Ganesha Educational University) and Universitas Mahendradatta.

OBJECTIVE & THEME
The objective of the event is to exchange experiences and widen network among scholars, practitioners and professionals on educational technology studies and practices around the world. The theme of the conference is "Educational Technology for Improve Quality and Access of Education for Prosperous Society".
