About CoEMA

CoEMA stands for the International Conference on Educational Management and Administration. It is hosted by Universitas Negeri Makassar in collaboration with ISMAPI, the Association of Indonesia Educational Management Scholar. This conference aims at bringing knowledge and good practices together from different perspectives. Linking theory, practice and research is a challenge to improve the quality of education. The speakers and participants are vary from academics, education practitioners, teachers, school principals, policy makers, and students.

We would like to thank everybody who has helped to organize the Conference. We thank all the speaker, the presenters and all the participants. Special thanks is given to the Rector of Universitas Negeri Makassar and the National Board of ISMAPI for their support and fruitful feedback during the preparation of the Conference.

Conference Committee

Prof. Dr. Syamsu A. Kamaruddin M.Si
Forewords by Rector UNM

I would like to congratulate the committee for its success in organizing the conference. This international conference is part of the university role in sharing and developing knowledge in the field of educational management and administration. I believe, the presence of various presenters and participants has contributed to the future development of knowledge and practices in the field.

This conference is just a beginning of the next journey in linking the theories and practices in the field of educational management and administration. Further partnership among scholars and universities will allow us to gain deeper understanding about the field. It is expected this conference will add new insight in improving the quality of educational management and administration in this dynamic environment.

Appreciation should be given to those who have helped and participated in this conference. Hopefully, this conference has given us opportunities to do more research collaboration and challenged our ideas about what educational management and administration should be.

will ignite them to actively create a concrete product. As we discuss in preface, creating a product is also including the five below level in Bloom’s cognitive taxonomy. Student’s knowledge, capability, and competency will be challenged in this research so they can afford a higher level of themself.

2. Create a concrete solution which will improve the performance or create a solution in educational field. The product will need full support from institution to get attention from government.

3. Improving the quality of major in educational field, which will affect the quality of institution.

4. Improvement of education itself, which will trigger the improvement of human resource and nation itself.

D. Conclusion
Creating a new trend of product-based research will lead to many advantages that will improve the quality of human resource in management of education field. The challenge that awaits us in future must be faced by challenging ourselves now, improving the cognitive, capability, and competency of our next generation leader in education.
